- MIB is committed to competition law compliance. The consequences of non-compliance are grave – both organisations and individuals can be fined and individuals may even be sent to jail.
- All MIB and industry meetings, formal and informal, must avoid areas that might fall foul of competition law.
- Examples include discussion of arrangements or prices and standard conditions, the exchange of commercially sensitive market information or the sharing-out of markets.
- If the meeting Chair feels that the meeting is in danger of breaching competition law, they may bring the discussion to an immediate close, terminate the meeting altogether, or ask individual members to leave.
- If any member has similar concerns at any time, they should raise them immediately on Slido.
